CourseCode:R1140720

Duration:

6-12 months
(depending on
experience)

Delivery:

Online + Unlimited
Phone Sessions

NationallyRecognised:

Yes

Who is this course for?

Have you been working as a Leading Hand, Supervisor or Foreman for years, and do not have your formal qualifications? This is the perfect opportunity to back your experience with your qualifications - Get the 'piece of paper' to prove you can do it!

Are you looking to develop your Supervisory career in your field of civil construction, civil infrastructure or civil works? This course is for you if you don't already have your Certificate IV in Civil Supervision.

Here's what one of our students thinks...

"Excellent Course for supervisors and foreman. You get to better your knowledge around civil and being a supervisor/foreman.

This course has taught me to plan ahead to know where you're going and what you want to achieve. I also have more of a health and safety focus outlook.

The support processes for assessments were very helpful and precise."

Shannon Clelland

Where can this course take you?

This qualification gets your skills formally recognised and proves to your employer that you have the knowledge and experience to get the job done.

This is the qualification that the major project HR and WHS people understand. They need to have people working on their sites who have these qualifications.

Most major Civil Companies and Councils now expect their Supervisors to hold these qualifications.

RII50420

Diploma of Civil Construction Management

STUDY ONLINE

Great for Supervisors, Foremen, Project Managers, and Civil Construction Managers

Course Details

Course Code: RII50420

Duration:
6-12 months
(depending on experience)

Delivery:
Online + Unlimited
Phone Sessions

Nationally Recognised:
Yes

Who is this course for?

If you are a Supervisor, Foreman, Project Manager, or Civil Construction Manager, you can gain further skills in coordinating workplace teams, projects, management, and estimating!

Here's what one of our students thinks...

"GTI is flexible with its time and did all they could to ensure I had the support

I have been actively employed in the civil industry for over 10 years straight now so most of the subjects were second hand to me. I did however enjoy learning about road design again as I hadn't done them for a few years."

Sam Clatworthy

Here's what one of our students thinks...

"I think the course was an accurate reflection on what I've been doing for the last 6 years and confirmed the policies and processes relating to the workforce/workplace were relevant.

I would very much recommend the training to others as a method of formally recognizing what they already do and to qualify them for future employment at a higher level."

Gary Shakespeare

Where can this course take you?

During this course you will discover and implement practical strategies that will make a REAL difference to managing civil construction plans; environment, quality, risk, safety systems
Improving safety and compliance to systems on job sites, delivering Projects 'on time' and 'in budget and improving your teams effectiveness.

With infrastructure projects at an all time high and being pulled forward by governments, having your qualifications allows you to stand out from the crowd and gain a higher level position.

*Accurate as 20/07/2021. For the latest information see [our webpage](#).

RII60620

Advanced Diploma of Civil Construction

STUDY ONLINE

Great for Business Owners in Civil Construction, Managers, Engineers, Environmental, Quality, Safety, Risk...

Course Details

Course Code:
RII60620

Duration:
6-12 months
(depending on
experience)

Delivery:
Online + Unlimited
Phone Sessions

Nationally Recognised:
Yes

Is this course for me?

This course is very popular with Superintendents, Managers, Engineers and those who manage multiple projects or are responsible for creating the systems – Environmental, Quality, Safety, Risk...

You will be working individually with your Trainer to create (or revise if you have already created) the following systems – Risk, Environmental, Quality, Safety, Civil Construction Plans.

You can then have the choice between Estimating, Leadership and Management, or Directing Multiple Projects units to complete your qualification.

Here's what one of our students thinks...

"I found the Business units of my Advanced Diploma of Civil Construction have the most significant impact on my life as well as helping me develop work skills. The RPL process was easy to use. I would recommend this training to others as it is very informative, especially for Project Managers.

James O'Brien

Where can this course take you?

Becoming qualified with your Advanced Diploma of Civil Construction is highly valued within Civil Construction, Mining and Coal Seam Gas industries. It is also highly valued when applying for tenders, by large companies and Councils etc.

One of the greatest things with gaining your qualification is being formally recognised for the years of experience and knowledge you have. Although this qualification is not new, there have only been a privileged few who have gained the benefits of having the recognition they deserve by completing their Advanced Diploma of Civil Construction.

Certificate IV in Entrepreneurship and New Business

STUDY ONLINE

Are you a Small Business Owner or Entrepreneur looking to grow and develop your business?

Course Details

Course Code:
BSB40320

Duration:
6-12 months
(depending on
experience)

Delivery:
Online + Unlimited
Phone Sessions

Nationally Recognised:
Yes

Who is this course for?

If you are working on your current business or developing your new business idea, this course takes you and your business from where you are now to where you want to be. You will be looking at all aspects of finance, marketing, KPIs, systems and your role in each of these.

Here's what one of our students thinks...

"The course gives you a greater understanding of the way a business runs.

I now personally have a greater understanding of bookkeeping and understand how the balance sheets cashflow and profit and loss fit into the total financial look of the business."

Joanne Mobbs

Where can this course take you?

This course will provide you with the skills to develop a Business Plan for the next 2 -5 years, while giving you a greater understanding of business growth strategies and business management skills.

Learn how to:

- Plan Small business finances
- Market your business
- Coordinate implementation of customer service strategies
- Identify potential business opportunities & designing action plans
- Build positive client relationships and business networks
- Coordinate business resources
- Manage business operations
- Employ staff for your business and get them working as a team
- Day-to-day operational skills
- Reduce the time you need to put out 'emergency fires'

Nationally Recognised:
Yes

Who is this course for?

Are you involved in helping to manage complex projects as a contracts officer, project administrator, or project team member?

This online Project Management course provides you with the fundamental skills you need. It is the essential starting point for you to develop your career in project management.

Here's what one of our students thinks...

"I would recommend this Project Management course as it was a positive experience and good introduction into project Management.

As a result of the training I now feel more comfortable in the process of building a project management plan, communicating it to my workmates effectively and implementing the plan."

Jason Rouse

Where can this course take you?

You can work for the government, run marketing projects, administer contracts, roll out IT programs, organise major events, build buildings and high-rise apartments, coordinate infrastructure projects, even produce movies! You could find yourself managing all sorts of interesting projects.

Designed for busy people, you can study at your own pace and become qualified. With flexibility built in at every stage, you can maintain your work-life balance while building your future and advancing your Career.

BSB41419

Certificate IV in Work Health and Safety

STUDY ONLINE

Great for...

WHS Inspectors, WHS Managers, OHS Advisors

Course Details

Course Code:
BSB41419

Duration:
6-12 months
(depending on
experience)

Delivery:
Online + Unlimited
Phone Sessions

Nationally Recognised:
Yes

Who is this course for?

WHS is a career for people with strong interpersonal skills. As a WHS professional, you will be overseeing workplace procedures and analysing the relevant risks and safety hazards.

You will analyse the processes to produce improved policies ensuring the safety of the employees of the organisation.

You will be giving training and feedback to employees on workplace practices, and motivating staff to achieve greater health and safety outcomes.

Here's what one of our students thinks...

"This was the best online course. The student support from was very helpful and the assessments were very practical and relevant to my work.

I was able to implement what I learnt into my job. Completing these qualifications definitely gives me a better chance to advance my career and it will help me to get a promotion."

Maged Llnajeh

Where can this course take you?

Compliance with work health and safety laws is mandatory, and many courses and individual units educate and train workers in how to comply with organisational and legislative rules. This qualification extends that knowledge and understanding.

It is aimed at more senior tradespeople or business managers who require an in-depth understanding of the way in which Health and Safety can become a key platform in any organisation's safety culture, and a point of difference between just doing enough and actually embracing the spirit of the law.

Diploma of Project Management

STUDY ONLINE

Are you involved in managing complex projects?

Course Details

Course Code:
BSB50820

Duration:
6-12 months
(depending on
experience)

Delivery:
Online + Unlimited
Phone Sessions

Nationally Recognised:
Yes

Who is this course for?

Are you involved in managing complex projects?
Or would you like to move into Project Management?
This Diploma of Project Management is designed just for you.

Learn how to manage complex projects based on the international Project Management Body of Knowledge PMBOK – project, time, scope, cost, communication, procurement, risk...

Develop practical project management skills and learn how to manage the overall project, bringing it in on time and under budget!

Here's what one of our students thinks...

"I would recommend this training to others as the support is great. The most significant impact I have had is being able to solidify my Project Management knowledge and expand my understanding in areas, such as various ways to approach programming for a project, rather than just relying on proprietary computer based programs."

Graham Bickerstaf

Where can this course take you?

Becoming a Professional Project Manager with formal project management qualifications is a MUST have to advance your career in Project Management. Completing your Diploma of Project Management will also give you project management letters after your name and practical project management skills and techniques that are recognised and valued Australia wide and internationally.

BSB51319

Diploma of Work Health and Safety

STUDY ONLINE

Must already hold a Certificate IV In Work Health and Safety.

Course Details

Course Code:
BSB51319

Duration:
6-12 months
(depending on
experience)

Delivery:
Online + Unlimited
Phone Sessions

Nationally Recognised:
Yes

Entry Requirements:
You must already hold
a Certificate IV In Work
Health and Safety.

Who is this course for?

The Diploma of Work Health and Safety is ideal for HSE Managers and other senior staff who already hold a Certificate IV In Work Health and Safety.

This Diploma focuses on safety leadership and the skills needed to develop, implement and maintain an organisation's WHS management system. Students can also follow elective pathways in worker's compensation and return-to-work rehabilitation programs.

Here's what one of our students thinks...

"The competency I completed was a requirement of my position as a SSE and will further enhance my knowledge of safety aspects in the work place.

The friendly GTI staff were very helpful and I would recommend this safety training to all levels of management involved in any business where safety is paramount to their employees."

David Easton

Where can this course take you?

When time is precious this course offers participants the option to study in their own time. Participants will learn how to review and audit health and safety management systems, apply continuous improvements, undertake high level risk management processes and develop corporate style policies and procedure to manage work health and safety processes.

The course will provide you with the skills and knowledge to investigate health and safety incidents, identify potential safety hazards, manage risks and comply with legal obligations. You will learn how to apply health and safety measures and initiatives to ensure that the organisation complies with work health and safety legislation and workplace policies to deliver a healthy and accident-free work environment to its employees.

NATIONALLY RECOGNISED
TRAINING

Who is this course for?

Project Managers, Builders, Site Supervisors & Construction Managers.

If you are looking to further your career in Construction and get off the tools, or want to formalise your skills with a qualification that employer's will respect, then this is the qualification is for you.

Here's what one of our students thinks...

"I found the RPL process very good for me as a person working in construction industry that works 60 hours per week.

By being able to talk the answers through then send some documented evidence is a better way than completing long worded assessments. The office support was excellent."

James Castle

Where can this course take you?

This CPC50308 qualification is now considered a 'must have' to work as a Supervisor, Foreman or Project Manager in the lucrative building and construction industry within Australia.

It is a required qualification in some states and earns you CPD points for Building Associations and other states. It is also highly valued overseas. Gaining qualifications and formal education in leadership and management, it is also highly valued in the building and construction industry.
