

Advance Your Career in **Building and Construction**

Our Building and Construction Qualifications

In today's competitive world, employers expect formal qualifications when looking to employ Construction Site Supervisors and Project Managers.

If you are looking to further your career in Construction and get off the tools, or want to formalise your skills with a qualification that employer's will respect, then completing a GTI qualification is for you.

Our courses focus on training in project management, dealing effectively with sub-contractors, consumers, other parties, and being the person responsible for a building project.

Who is this course for?

Are you involved in helping to manage complex projects as a contracts officer, project administrator, or project team member?

This online Project Management course provides you with the fundamental skills you need. It is the essential starting point for you to develop your career in project management.

Here's what one of our students thinks...

"I would recommend this Project Management course as it was a positive experience and good introduction into project Management. As a result of the training I now feel more comfortable in the process of building a project management plan, communicating it to my workmates effectively and implementing the plan."

Jason Rouse

Where can this course take you?

You can work for the government, run marketing projects, administer contracts, roll out IT programs, organise major events, build buildings and high-rise apartments, coordinate infrastructure projects, even produce movies! You could find yourself managing all sorts of interesting projects.

Designed for busy people, you can study at your own pace and become qualified. With flexibility built in at every stage, you can maintain your work-life balance while building your future and advancing your Career.

Who is this course for?

Project Managers, Builders, Site Supervisors & Construction Managers.

If you are looking to further your career in Construction and get off the tools, or want to formalise your skills with a qualification that employer's will respect, then this is the qualification is for you.

Here's what one of our students thinks...

"I found the RPL process very good for me as a person working in construction industry that works 60 hours per week.

By being able to talk the answers through then send some documented evidence is a better way than completing long worded assessments. The office support was excellent."

James Castle

Where can this course take you?

This qualification is now considered a 'must have' to work as a Supervisor, Foreman or Project Manager in the lucrative building and construction industry within Australia.

It is a required qualification in some states and earns you CPD points for Building Associations and other states. It is also highly valued overseas. Gaining qualifications and formal education in leadership and management, it is also highly valued in the building and construction industry.

Who is this course for?

Are you involved in managing complex projects?
Or would you like to move into Project Management?

This Diploma of Project Management is designed just for you.

Whatever projects you are interested in managing, you can now gain your formal Project Management qualification based around that area of interest e.g. Healthcare, IT, HR, Event Management, Construction, Business Development, Government and many others. You will be developing practical project management skills and learning how to manage the overall project, bringing it in on time and under budget!

Here's what one of our students thinks...

"I would definitely recommend this course. It has given me more education in my field. I believe I am better equipped now to take on larger projects."

Dean Small

Where can this course take you?

Becoming a Professional Project Manager with formal project management qualifications is a MUST have to advance your career in Project Management. Completing your Diploma of Project Management will also give you project management letters after your name and practical project management skills and techniques that are recognised and valued Australia wide and internationally.

You will learn how to manage complex projects based on the international Project Management Body of Knowledge PMBOK – project, time, scope, cost, communication, procurement, risk... There will be so many opportunities open to you in project management within...

- Government projects
- Aged Care, NDIS, and Healthcare
- Banking and Finance, IT, and Events
- Civil and building construction
- Energy, resources and mining
